

Module 11 - Instructions on presenting the results of the RAP calculations to other groups

1. Participants work in the same six groups as for "Jeopardy".
2. A nominee from each group summarizes the three scenarios proposed by their group.
3. The nominee then explains how they calculated and projected the total cost of implementing the scenario till 2020.
4. The nominee also explains the assumptions made by the group.
5. Each group is then given five minutes to answer questions from other participants.

Duration: 1.5 hours
