

MICRO-INSURANCE BRIEFS

Karnataka: Swayam Krishi Sangam Health Scheme

Scheme Design

Founded in 1998, Swayam Krishi Sangam (SKS) Micro-finance Limited is one of the fastest growing micro-finance organizations in the world, having provided over \$579 million in loans to close to 2,000,000 women clients in some of the poorest parts of India, the drought-prone Deccan region. In the last year alone, SKS micro-finance grew by nearly 300%, with a current portfolio of \$263 million and a 99% on-time repayment rate. SKS currently has 770 branches and over 6800 employees in the states of Andhra Pradesh, Karnataka, Maharashtra, Orissa, Kerala, Chattisgarh, Gujarat, Uttranchal, UP, Bihar, Jharkhand, West Bengal, Rajasthan, Delhi and Madhya Pradesh.

In addition to rapid expansion, SKS leads the industry in technology development and innovation. It is one of the first MFIs to have a fully-automated management information system. SKS is in the process of setting up a customised ERP solution which will work across its offices and give access to real time data. SKS is aggressively looking at additional ways to empower the rural poor within India while remaining economically self sufficient. In addition to partnering with ICICI Lombard for health insurance, SKS has partnered with LIC in providing life/credit insurance to its members. SKS is currently building a robust distribution channel across rural India to explore possibilities of reaching quality retail goods, solar lamps, mobile handset which are aimed at making its members economically self-sufficient and getting access to a better lifestyle

Plan Insurance Key Features

- One of the few mandatory schemes
- Benefit starts from day one of enrolment
- Maternity benefit from day one a key features considering that SKS provides loans to female members only
- Provision both for cashless and reimbursement facility

Main Achievements

- Enrolment of 5 Lakh lives within 10 months
- Claim settlements well within 37 days
- Claim rejection ratio less than 7%
- 34 % of claims is for maternity cover

Remaining Challenges

- Effective and valuable communication to the members of the benefits of the insurance and its utilisation
- Low awareness about Health Insurance among hospitals
- Simplification of documents for reimbursement

Development Plans

- Roll out of Health Insurance in 500 branches spread across 7 states by March 2009
- Enrolment of 2.7 million lives by March 2009
- Introduction of OPD facilities for the clients through the network hospitals (negotiations on with the insurer)
