Procedure:
(1) 17-18 February, 2016: Group discussions for Sessions 3-6

ABND SPF Technical Working Group is divided into the following three sub-groups for group discussions:
- Government ministries, agencies and funds;
- Civil society and social partners (Trade Unions and Employers organisations) and
- United Nations agencies, international financial institutions and donor community.

For each session, each sub-group selects one **moderator** and one **note-taker**. **Moderator** will moderate the sub-group discussion and eventually present the results of discussion at the wrap-up of each session. Moderator has to pay attention to the following points:
- The main purpose of sub-group discussion is to select the priorities (preferably one priority) for national action on social protection based on the following background information: the assessment matrix, presentations on preliminary costing results and policy assessment;
- New priority not mentioned in the matrix can be alternatively selected upon the consensus of sub-group members
- Moderator has to explain how and why your sub-group has selected the priority which you are going to present and
- For this exercise, it is not necessary to present detailed action plan of selected priority.

**Note-taker** will take notes of discussion to the flip-chart and also do time management. On the last page of your note, please write down the selection of priority by your sub-group with the concrete wordings which can be easily understood by anybody.

(2) 18 February, 2016: Review of the priorities under 4 components for final consensus by the Technical Working Group.

Based on the results of discussion at Sessions 3-6, the Technical Working Group will discuss and agree on selecting the national priorities (2 (maximum 3) priorities) for action in mid/long-term which will go beyond the present Social Protection Development Programme for 2015-2017. The results of this discussion will be reflected to the draft conclusions which will be presented on 19 February, 2016.
